## **The Pastel Head**

*Six Special Classes with Bob Palevitz*  
**at PSA School for Pastels beginning February 1, 2012**

Wednesdays, 2-5PM

Due to the popularity of Bob's PSA workshop, he has agreed to conduct a special six week class for us. Artists will use light and shade to first produce composition and form plus a limited palette to bring the sensitivity of life to the subject before them. Learning will come from taking chances, not trying to make everything perfect, according to the instructor. Bob Palevitz is a native New Yorker, attended the School of Visual Arts and the Art Students League of New York. His ideas and work have been published in art magazines. An award-winning painter, Palevitz has had a book published on his paintings and drawings in 2005. He currently teaches still life painting in his Union Square studio. His question is, "What are we really painting?"
